

November 13th 2015

08:30 **Session 5: Fine-tuning the immune system to improve the action of standard treatments**
Chairs: W. H. FRIDMAN and Yong-Ju LIU

• **Guido KROEMER**, Institut des Cordeliers, Paris, France:
Anticancer immune response and chemotherapy

• **Sergio LIRA**, Mount Sinaï Hospital, USA:
Exploring the connection of microbes, inflammation, and cancer

• **Philippe ARCHINARD**, Transgene, France:
TG4010 Immunotherapeutics product

10:00 **Poster session and Coffee break**

10:30 **Session 6: IMMUNOCAN NETWORK : Predictive and prognostic biomarkers in Chinese population**
Chairs: Zhi-Ming SHAO and Romain MICOL

• **Nicolai MAOLANON**, FUSCC-IM, Shanghai, China:
Prognostic and predictive values of MUC1 and MUC16 glycoforms in solid cancers

• **Romain GINESTE**, FUSCC-IM, Shanghai, China:
Prognostic and predictive values of immune parameters in solid cancers

12:00 **LUNCH BREAK**

13:00 **Session 7: CLARA NETWORK**
Chairs:

Talk 1:

• **Saadi KHOCHBIN**, Institut Albert Bonniot, Grenoble, France:
Cell identity Loss in Cancer: a Source of New Biomarkers and Therapeutic Targets (On behalf of CLARA Network)

14:00 **Session 8: Glycan Biomarkers in Cancer**
Chairs:

• **Manish PATANKAR**, University of Wisconsin Comprehensive Cancer Center (UWCCC):
Effect of mucin glycosylations on immune response

• **Aleksandra GENTRY-MAHARAJ**, London:
Update on biomarker performances in United Kingdom Collaborative Trial of Ovarian Cancer Screening (UKCTOCS)

15:00 **Conclusion & perspectives:**
Xuetao CAO & Laurence ZITVOGEL

2nd Euro-Asian Experts Conference on Immune Biomarkers for Personalized Medicine in Oncology

Shanghai 2015

**Fudan University
 Shanghai Cancer Center**

Institut Mérieux Joint Institute

2nd Euro-Asian Experts Conference on Immune Biomarkers for Personalized Medicine in Oncology

November 12th 2015

08:30 **Opening ceremony**
Chairs: Zhi-Ming SHAO, Romain MICOL, Laurent BOCHEREAU

09:00 **Session 1: Targeted treatment therapy to tackle tumor heterogeneity**
Chairs: Laurence ZITVOGEL and Xuetao CAO

• **Jean-Yves BLAY**, Centre Léon Bernard, Lyon:
Tumor Molecular Complexity: Implication for new treatment

• **Zhu CHEN**, Jiaotong University, Shanghai, China:
Synergistic target therapy against human cancer: lesson learnt from acute promyelocytic

• **Zhi-Ming SHAO**, *Targeted treatment in breast cancer*

10:30 **Poster session and Coffee break**

11:00 **Session 2: A recipe to reactivate immune surveillance?**
Chairs: Zhu CHEN and Jean-Yves BLAY

• **Laurence ZITVOGEL**, Institut Gustave Roussy, Paris, France:
Personalized Immuno-Oncology in melanoma

• **Xuetao CAO**, CAMS, China:
Title

• **Alexander EGGERMONT**, Institut Gustave Roussy, Paris, France:
Title

12:30 **LUNCH BREAK**

13:30 **Session 3: How to break tolerance and to shape patient immune system?**
Chairs: Jiong WU and Paul HOFMAN

• **Wolf H. FRIDMAN**, Institut Les Cordeliers, Paris, France:
Cancer and immune cross-talks in shaping tumor microenvironments

• **Yuting MA**, Institut Gustave Roussy, Paris, France:
Chemotherapy-triggered crosstalk between tumor and host immune system

• **Yong-Jun LIU**, Medimmune, USA:
Targeting OX40 for cancer immunotherapy

15:30 **Poster session and Coffee break**

16:00 **Session 4: Targeting key players of tumor-associated inflammation**
Chairs: Lisa COUSSENS and Keith SYSON CHAN

• **Alberto MANTOVANI**, Humanitas University, Milan, Italy:
Pathways connecting inflammation and cancer

• **Andreas LUNDQVIST**, Karolinska institute, Sweden: NK cells
Regulation of Natural Killer cell responses in the tumor microenvironment

• **Paul HOFMAN**, IRCAN, Nice, France:
Tumor associated myeloid population: a potential target for immunotherapy in lung carcinoma ?

17:30 **Poster session**
